

Mika Helenius

<https://www.linkedin.com/in/mikahelenius>

Mr. Mika Helenius (M.Sc. Tech.) is the general secretary and chief executive of TIVIA Finland (est. 1953), Infuture think tank, and Computer Science Foundation since 2016. Member of National Engineers education and technology commissions. Mr. Helenius has over 20-year experience in international software intensive product and service business. He has been nominated nine times to the most influential TOP 100 and on 2009 as the most influential person among ICT professionals. He is the creator and director of business and information systems engineering master's and executive education as part of EIT Digital and Aalto University. During his executive career he has worked for domestic and global ICT companies in EMEA and North America. As founder, entrepreneurial owner and CEO of the leading digital and software business he expanded the software engineering business to 100-person software engineering and consulting business before very successful exit 2007. In the past ten-year Mr. Helenius has been adviser to national bodies, EU, IMF and OECD on digital platform, cyber space and software enabled economy and competitiveness.

TIVIA

The Finnish Information Processing Association established 1953, TIVIA, is an independent NGO and non-political association of Finnish ICT professionals, education organizations and companies that provide ICT products and services or use them. TIVIA combines both business and technology professionals. <http://www.tivia.fi>
